# ALOY

Curious, determined, and intent on uncovering the mysteries of her world; one of Aloy's greatest abilities is being able to override and control machines.

The Tenakth Tactician is the ultimate armor to do just that: bolstering her ability to command machines and play the battlefield like a Machine Strike board.

▲ FACE

Aloy has freckles on her nose, cheeks and forehead. The only make-up she applies is a dark eyeliner.

# ▲ FACE PAINT

As a warring tribe, the Tenakth use their outfits and face paint to strike fear in the heart of their enemies.

The shape language of the Tenakth derives from the exhibits in their sacred Memorial Grove. The glitches in the museum's ancient holograms result in oscillating patterns, represented in Tenakth face paint as jagged spikes.
